Clipper Yearbook Dedication

Program Council is pleased to dedicate the 2003 Clipper Yearbook to

Helene Collins,

for her years of commitment to the Salem State College community.

Prior to her position of administrative assistant for the Campus Center, she was the administrative assistant to the Associate Dean of Academic Affairs for 12 years, and worked in the Learning Center. At the Learning Center Helene was involved with academic counseling, the developmental support programs, and the tutorial and high school programs. She was known as the person to turn to if you had questions. She always had the right answers.

As the administrative assistant for the Campus Center, Helene works together with the newest students during orientation and with our seniors during commencement. She has efficiently orchestrated and booked many events, and made them better by allowing collaborative and well organized communication between appropriate support departments.

Helene's dedication to both her career and the Salem State College community are instantly recognizable with her friendly smile and laugh when she answers students' questions with a pleasant manner even though she has been asked that same question hundreds of times.

Thank You Helene for your commitment over time.

STUDENT LIFE

Program Council

Salem
STATE COLLEGE

Nancy D. Harrington, *President*

To the Class of 2003,

I want to congratulate and offer my best wishes to all of this year's graduates. As you leave Salem State College you will find many challenges. One of the most important challenges will be to live in peace and harmony with our global neighbors and with Mother Nature Herself.

The world has reached a major defining moment in history, equal in consequence to the transformation from the Middle Ages to the Renaissance. We must rise to a new height of consciousness, to a new level of life and vision, where our natural resources, cultural, and biological diversities are celebrated and cherished, and not trampled upon.

World conflict and the threat of terrorism and nuclear annihilation are real. And while I hope that we are spared destruction by war, the way we live must change in order not to perish on its own. We must continually assess the fundamental definitions of human life and society. Is it right that our life's and society's activities should be ruled by material expansion above all? Is it permissible to promote such expansion to the detriment of the Earth's delicate ecosystems?

Take with you the knowledge that you gained at Salem State College and work to these ideals, but also focus on the personal development that you have made here in Salem. In the final analysis, what determines a person's greatest achievement is not so much their professional skill or political savvy as it is their character.

Clint Fralick

"Can you give yourself your own evil and your own good and hang our own will over yourself as a law? Can you be your own judge and avenger of your law? Terrible it is to be alone with the judge and avenger of one's law. Thus is a star thrown out into the void and into te icy breath of solitude" From Thus Zarathustra in The Portable Nietzsche
